

Testimonials

What clients are saying about Sales Coach Now and SWI!

"I am a member of Sales Coach Now and I love it! In addition to all of the other great benefits, members have the opportunity to promote their upcoming events. There were several people who attended our last Healthy Food Tasting Party and Informational because they saw it on "Sales Coach Now". I encourage all members to take advantage of this perk. Promote your event, it works!" **Robin De-Ivy Allen**

"Okay, I am loving your site! I just started listening to your modules and they are great! Exactly what I need getting back into Arbonne. I am very blessed to have you as an incredible friend and a phenomenal sales coach... Thank you!!!" **Victoria Brodie**

"Great talk last night! You motivated me to schedule my 30 minutes of sales calls and schedule that meeting right off the bat and I was able to land a meeting with a client at the top of my target client list! Also, this client is scheduling several buyers in the company to attend that one meeting! So excited! Thanks for the motivation!! You're awesome!" **Mary Sanchez**

"Thank you, thank you, thank you, and a million times more thank you!!! Within these two weeks, I have made about 10 appointments, and 6 already become new clients. Plus, they are going to refer friends! Your classes made a big difference for me and have helped me so much with my business!" **Ana Villagran**

"Selling With Intention helped me identify and get past my fears of selling. The big surprise for me was that Selling With Intention was more than just learning principles of selling. Selling With Intention provided me with a new process of setting and achieving objectives. I am looking forward to the follow up coaching sessions so that this experience does not become just a temporary change in attitude!" **Keen Hayes**

"SWI was one of the most beneficial training programs I have ever attended! Developing the script to use for making potential calls to set up appointments was the most useful part. I also learned to keep selling simple!" **Amy Boyd**

"This experience was truly enlightening. It empowered me with tools that will allow me to be much more effective in my day to day life on both a personal and professional level. The most useful part of the 3-Day was creating your ideal schedule and the visualization where we released our fear. I also learned that it is okay to let go of old beliefs and replace them with new ones!" **Nicole Kinney**

"The practical information shared was perfect! It was just what I was looking for to gain clarity and direction in moving my business forward!" **Victoria Brodie**

"I'm always brainstorming and coming up with good ideas to increase business. My problem was following through. Ursula gave me simple, practical plans to follow and now I feel prepared to put those ideas to use!"

Connie Herr

"My first one-on-one coaching session with Ursula was two weeks ago, and I took her March 3-Day Intensive this week. I had 7 units sold for the month at that point. She encouraged me to write a new unit goal down and post it everywhere I could see it. Although I thought 15 was a stretch, that is the exact number I ended up selling for March!" **Justin Bumpus**
